Offender Telephone System Provider – Global Tel*Link

The Georgia Department of Corrections' (GDC) current contractor for offender telephone system services is Global Tel*Link (GTL). All offender collect calls from GDC facilities will be initiated and completed by the GTL system. This document is to serve as a guideline and overview of the services offered by GTL for friends and families of offenders housed in GDC's facilities.

Receiving Calls from a GDC facility

Offender telephone calls will only be completed if the telephone or cellular telephone number called is on the offender's call allowed list.

Call Allow Lists: Each offender will have an established phone list of up to a maximum of twenty (20) persons. The offender may have persons on the phone list that are not on his/her visitation list. The offender is responsible for providing accurate call list information. The offender is responsible for updating his/her call allow list every six months (if desired) according to procedure. Any offender who gives deceiving or deliberately inaccurate information in an effort to deviate from or circumvent established procedures shall be subject to disciplinary action through the offender disciplinary process.

Determining your type of billing with GTL: GTL will bill through a traditional local telephone company (also known as a Local Exchange Carrier or LEC) up to a monthly limit of \$100.00. Payments for these billings are made with your normal telephone bill. All other calls are payable through a GTL Direct Remit account or pre-paid AdvancePay account.

Local Phone Company Customers

GTL has the ability to bill calls from an offender at a GDC facility through your local telephone company if it is a traditional local telephone company or LEC such as AT&T, Verizon or Qwest.

How do I know whether I am billed by my local telephone company or direct billed by GTL?

- A customer can be billed through their local telephone company if the company has established a billing arrangement with GTL. Once the offender places the call to your number, merely accept the call and the charges will appear on your local phone company bill. **However, if you exceed a \$100 per month in call usage you will be required to set up a Direct Remit account or AdvancePay account to continue to receive calls.**
- If in doubt that your local telephone company is a LEC with an established billing arrangement with GTL, please contact GTL customer service to confirm.

AdvancePay (Prepaid Collect) Account Customers

These include customers who:

- Are able to receive collect telephone calls and wish to take advantage of a reduced calling rate.
- Are able to receive collect telephone calls but have exceeded their \$100 per month limit.

OR

- Want calls placed to their cellular telephones.

OR

- Have a non-traditional telephone company service such as a cable provider (e.g. Cox, Comcast, etc.), a VoIP provider (e.g. Vonage, 8x8, etc.) or a CLEC (Time Warner Telecom, etc.).

Customers who are new to the AdvancePay system will, during the first call from an offender, hear information on how to make a deposit using a credit card via the automated system, through a customer service agent with GTL at 1-800-483-8314, or via a website at www.offenderconnect.com to set up a new account.

AdvancePay Account Customers

- The cost of calls are prepaid via funds applied to an account. The funds are tied to the telephone number which you specify.
- The minimum deposit amount for establishing an account is \$50.00.
- Payments may be made as often as needed; however, there is a \$4.75 transaction fee anytime funds are added to the account.
- Customers will be notified by an automated message from GTL when the prepaid funds are nearly depleted. You will be unable to receive additional calls until additional funds are added to the account.
- Payments may be made with a credit card by calling Global Tel*Link at 1-800-483-8314 or online at <https://www.offenderconnect.com>.

“No activity” means that no calls have been made on the account and there have been no deposits/adjustments, or any customer calls into the GTL automated system for that account. In the event that customers contact us after 90 days, GTL generally enforces a liberal policy in reactivating an account or refund based on a customer request so long as the account in question can be located in the database and authenticated. In order to maintain efficient databases for our customers and the GTL service team GTL adheres to this policy. Accounts that are dormant or inactive are purged from the active database.
