

## Overview

Upon arrival into Georgia Department of Corrections (GDC) custody, offenders are classified and given a security level. The security level determines which prison an offender is housed.

State Prison	Location	Population
Hancock	Sparta	1267
Hays	Trion	1100
Macon	Oglethorpe	1762
Smith	Glennville	1615
Telfair	Helena	1400
Valdosta	Valdosta	1312
Ware	Waycross	1546

- Offenders classified as a close security typically fall into one or more of the following categories:
  - Escape Risk
  - Assault history
  - Deemed dangerous
  - Detainers for other serious crimes  
(detainer - a request from other law enforcement agencies to hold an offender for pending charges)
- Offenders with a close security classification:
  - May never leave the prison
  - Require constant supervision by a correctional officer
  - Housed in prisons with high security levels
- House offenders that other facilities cannot handle due to behavioral issues
- May house offenders of a lower security classification, *medium or minimum*, to perform job functions around the facility that close security offenders cannot complete due to security risks
  - **Medium security** - Offenders that do not have major adjustment problems and may work outside the prison fence under constant supervision
  - **Minimum security** - Offenders who tend to abide by prison regulations, who present minimal risk of escape, have been judged to be minimal threat to the community, may work outside the prison with minimal supervision, at many times have proven to be trustworthy, cooperative, no alcohol/drug problems and are eligible for Transitional Center (TC) referral

## HANCOCK STATE PRISON

- Opened 1991
- In-house TC
- Vegan diet facility
- GCI plant
- Tier I & II facility

### Special Work Details

- Contract and non-contract work details
